

EMPATHY MAP – FITNESS APP FOR BUSY PROFESSIONALS

UI/UX PROJECT– 1

Presented by:

Vennela Sakalabaththula

Internship Program:

DecodeLabs UI/UX Internship 2026

PROBLEM STATEMENT:

- Busy office professionals often struggle to maintain fitness due to hectic schedules, stress, and lack of motivation.
- This project uses User Personas and Empathy Mapping to understand user needs and pain points before designing a user-centered fitness app.

TARGET AUDIENCE:

- Remote software employees
- On site employees

GOAL OF THE APP:

- To help busy professionals maintain a healthy lifestyle through simple, flexible, and time-efficient fitness routines that fit into their daily schedules.
- The app aims to reduce fitness barriers by offering quick workouts, healthy habit guidance, and easy-to-follow routines for both remote and on-site employees.

PERSONA:

Name: Priya Reddy

Age: 24

Occupation: Manufacturing Compliance Associate

Work Type: On-site Working Professionals

Working Hours: 8:30 AM – 5:30 PM

About

- Priya is a 24-year-old manufacturing compliance associate who works on-site.
- Due to her busy schedule and work-related fatigue, she finds it difficult to maintain a consistent fitness routine.

Goals

- Stay healthy and active
- Build a consistent workout routine
- Reduce stress and fatigue

Frustrations

- Lack of time for exercise
- Tired after work
- Long sitting hours

Needs

- Personalized workout plans
- Short, effective workouts
- Reminders that fit her schedule

Empathy Map:

THINKS

"I should exercise regularly to stay healthy."
"My work schedule leaves me very little time."
"I need a routine that fits my lifestyle."
"I want to be more consistent with fitness."

FEELS

- Physically tired after work
- Stressed frequently
- Guilty about not exercising enough
- Motivated to improve health but struggles to start

SAYS

"I don't get enough time for workouts."
"Evenings are the only time I can exercise."
"Work often leaves me exhausted."
"A planned schedule would help me stay consistent."

DOES

- Works on-site from 8:30 AM to 5:30 PM
- Sits for long periods during work
- Eats mostly company-provided or healthy foods
- Has tried fitness apps but uses them inconsistently
- Prefers evening workouts.
